**InDorse Technologies CEO Rob Marano to Present at the America's Growth Capital  
7th Annual West Coast Emerging Growth Conference**

**New York, NY – February 14, 2011** – [InDorse Technologies](http://www.indorse.com), the leading provider of file protection software, today announced that President and CEO Rob Marano has been invited to speak at America's Growth Capital's (AGC) 7th Annual West Coast Emerging Growth Conference, February 14-15, 2011, in San Francisco, California.

Marano will present audiences with an update on the growing risk of using Web 2.0 technologies to share files. In addition to sharing insight into the vast amount of unsecured files circulating across the digital world, Marano will also provide a “sneak peek” of InDorse Technologies’ next generation software that protects and secures a file not at the device level, but in the file itself every time it is used and provides end users with intelligence on who has accessed the file anywhere in the world, especially outside the Web 2.0 browser experience.

AGC is a national, emerging growth focused investment bank founded by seasoned growth sector specialists with experience at leading boutique and bulge bracket investment banks. AGC's 7th Annual West Coast Emerging Growth Conference will provide an unparalleled opportunity for the 1,000+ attendees to exchange ideas and connect with 300+ fast-growing private emerging growth companies with median revenues of \$25mm.

**What:** “Evolution in IP Protection: Do You Know Where Your Files Are?”

**When:** Monday, February 14, 2011

**Where:** The Westin San Francisco Market Street, 50 Third Street  
San Francisco, CA 94103

**About InDorse Technologies**

Located in New York, NY, InDorse Technologies provides award-winning file protection software. InDorse delivers a new level of file intelligence and assurance that supports risk management, audit, and security objectives. Leveraging the native security elements contained in files, InDorse discovers, organizes, classifies, watermarks, enforces, and tracks all files that contain sensitive information, inside or outside the corporate network. InDorse provides this protection without impact to end users, or any additional desktop software or agents, enabling business and collaboration, but transparently adding additional layers of

monitoring and protection. For more information, about InDorse Technologies, please call +1 (646) 495-0966 or visit [www.indorse-tech.com](http://www.indorse-tech.com).
